TROPICAL CYCLONE BULLETIN NR. 2

Tropical Storm DOMENG (JANGMI)

Issued at 11:00 AM, 29 May 2026

Valid for broadcast until the next bulletin at 5:00 PM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal is currently hoisted

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

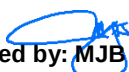

DOMENG is less likely to directly affect the weather condition of the country in the next 24 hours. However, the southwesterly windflow enhanced by DOMENG may bring **heavy rains over the western portion of the country beginning Sunday (31 May)**. **A weather advisory may be issued tomorrow (30 May)** in anticipation of the heavy rains.

Severe Winds

Based on the latest forecast track, the **hoisting of tropical cyclone wind signal over Extreme Northern Luzon is less likely, but not ruled out.**

The enhancement of the southwesterly windflow will bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Tomorrow (30 May):** Most of Visayas, Batanes, Cagayan, Pangasinan, Zambales, Bataan, Cavite, Batangas, Occidental Mindoro, Oriental Mindoro, Palawan, Romblon, Marinduque, Masbate, Albay, Sorsogon, Zamboanga del Norte, Misamis Oriental, Camiguin, Agusan del Norte, Surigao del Norte, Dinagat Islands, Sarangani, Davao Occidental, and Davao Oriental
- **Sunday (31 May):** Most of Visayas, Batanes, Cagayan, CALABARZON, MIMAROPA, Bicol Region, Zamboanga del Norte, Misamis Occidental, Misamis Oriental, Camiguin, Agusan del Norte, Dinagat Islands, Surigao del Norte, Sarangani, Davao Occidental, and Davao Oriental.

TROPICAL CYCLONE BULLETIN NR. 2

Tropical Storm DOMENG (JANGMI)

Issued at 11:00 AM, 29 May 2026

Valid for broadcast until the next bulletin at 5:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to moderate seas over the following coastal waters:

- **Up to 2.0 m:** The eastern seaboard of Cagayan, Isabela, Eastern Samar, and Dinagat Islands; the northern and eastern seaboard of Batanes, Catanduanes, and Northern Samar; the eastern and southern seaboard of Davao Oriental.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

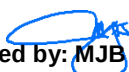

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the forecast confidence cone. Refer to “Other Hazards affecting Land Areas” for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- Tropical Storm DOMENG will continue moving generally northwestward until Sunday (31 May) before turning north northwestward to northeastward for the remaining forecast period. This tropical cyclone is less likely to make landfall over the country. DOMENG will likely exit the Philippine Area of Responsibility (PAR) by Monday (01 June).
- DOMENG will continue to intensify and may reach typhoon category tomorrow (30 May) while remaining over the Philippine Sea. Afterwards, it will steadily weaken.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
